Resource Spotlight: Journal of Visualized Experiments (JoVE); InCites sample tile

The Technical Library now provides access to the **Journal of Visualized Experiments (JoVE)**, in these subject areas: [Bioengineering](#); [Biology](#); [Chemistry](#); [Environment](#); and [Immunology and Infection](#). JoVE is “the world’s first peer reviewed scientific video journal. Established in 2006, JoVE is devoted to publishing scientific research in a visual format to help researchers overcome two of the biggest challenges facing the scientific research community today; poor reproducibility and the time and labor intensive nature of learning new experimental techniques.”

InCites™ See the new InCites tile on the [library home page](#): “Where are PNNL collaborators (outside of US)?”. These are updated monthly, to show the capabilities of the InCites tool. If you have a benchmarking question that you’d like to see answered, please email me.

Service Spotlight: New Hire appointments (or even Old Hire appointments)

Did you know that the Technical Library contacts every new hire to introduce the library, demonstrating the website and discussing user/researcher needs and library services? If you would like a refresher visit for you or your group, please contact the Technical Library at 375.3268 or /email/

ORCID update: 2016 is the year of the ORCID at PNNL

We will be making the rounds of all the buildings (taking a page from HR’s Benefits Road Show book) to talk about ORCID, register new accounts, and help with any questions about completing your ORCID record. Watch for dates in Inside PNNL and in upcoming newsletters, or contact Barbara Wetzel or Tomiann Parker anytime. Beginning January 1, 2016, The Royal Society will [require all submitting authors](#) to provide an ORCID as part of the submission process.

JFF (Just For Fun): Holiday Science in the blogosphere

Christmas Lectures from The Royal Institution: Starting with a [history of “hacking”](#), The Royal Institution’s Christmas Lectures offer links to hack your home to [make fairy lights flash to music](#), and [the importance of science communication and public engagement](#)...

Or check out Discover Magazine’s Citizen Science Salon [12 Days of Christmas](#) (2014 edition).

Although this is late for Hanukkah this year, check out [Eight Great Sci-Tech Experiences to Celebrate Hanukkah](#) to file away ideas for next year.

And finally, if you’re looking for some new lyrics for caroling, try [Scientific Songs of Praise](#)

Question of the month: Who is using Scopus?

Bonus question: Have you checked out Scopus since the library added it last month?

Yes No

Bonus question #2a If no, why not?

- Need training/demonstration
- Not the information I need
- Haven’t had time
- Other: _____

Bonus question #2b If yes, what did you think?

- What a great resource, thanks!
- It’s nice, but I wish it did _____
- It would be better if I could get some kind of training or demo
- Other _____

All respondents receive a gift through plant mail (additional prizes for bonus questions; *another* bonus prize the first time you include your ORCID). Reply to this email (please include your MSIN) or [email](#) Barbara Wetzel.
