

*These sources will help you find business, industry, and technical information for use in business development, commercialization, proposal writing, and intellectual property analysis.*

**Unless otherwise noted, the following resources are available to PNNL, Hanford Site Contractors and at Hanford Technical Library user stations.**

### Keeping Current

The Hanford Technical Library subscribes to services that can help you stay abreast of emerging technologies and trends in your field. For a list of resources providing alerting services see the *Keeping Current* web page at <https://library.pnl.gov/subjectview.asp?subjectid=59>.

### Market, Industry, and General Business Information

**Annual Reports—Free web services:**

- **Annual Report Service** <http://www.annualreportservice.com> - Provides links to many online annual reports.
- **The Annual Reports Service** <http://wsjie.ar.wilink.com/> - From the *Wall Street Journal Online*.
- **The Public Register** <http://www.prars.com/> - Request free annual reports.

**Fuld and Company:** Internet Intelligence Index, CI Reference Center, CI Toolbox  
<http://www.fuld.com/TIndex/HomePage.html> -

This website includes free analysis tools useful for gathering competitive intelligence information. Registration is required. **This resource is freely available on the web.**

**Hoovers Online** <http://www.hoovers.com/> - This Web site provides basic company information free of charge, including industry information, top competitors, key financials, and recent news. Detailed company financial information, analyst reports, and news archives can be purchased. **The resource is freely available on the web.**

**ProQuest** <http://proquest.umi.com/login/> - This multidisciplinary database includes citations, abstracts and full-text articles from newspapers, business publications, and scholarly journals. **Available to PNNL employees and at the user stations.**

### National and International News

**AJR NewsLink** <http://newslink.org/> - Find links to newspapers, magazines, newswires and radio and TV stations at this web site. National and international news organizations are organized geographically and by media type. **This resource is freely available on the web**

**ProQuest Newspapers**

<http://proquest.umi.com/login?COPT=REJTPUc1KzI1YisyYis3Mis2MzErMTA0MCsyOGYmSU5UPTAmVkVSPTI=&clientId=74975> - Search for full-text articles from the electronic editions of five major US newspapers including the New York Times, Washington Post, Los Angeles Times and the Christian Science Monitor as well as newspapers from across Washington State. **Available to PNNL employees and at the user stations only.**

**NewsVoyager** <http://www.newspaperlinks.com/home.cfm> - Use this gateway to find U.S., Canadian, and international newspaper sites. **This resource is freely available on the web**

### Federal Government Grant Awards

**NIH RePORTER** <http://projectreporter.nih.gov/reporter.cfm> - The Research Portfolio Online Reporting Tools provides access to expenditures, publications and patents of National Institutes of Health research projects that can be downloaded to Excel. **This resource is freely available on the web**

**National Science Foundation** <http://www.nsf.gov/awardsearch/> - The National Science Foundation offers a very nice database to search for awards by keyword, principle investigator, organization, state, zip code and more.

## Environmental Protection Agency, National Center for Environmental Research Star Grant Program

<http://epa.gov/ncer/grants/> - Progress reports, final documents, and articles from ongoing and completed research projects by year are posted on the Star Grant Program Web site. In addition, policy documents that analyze or use the research results are posted when available. A search engine permits users to search across years by topic, institution, grant number, investigator, or research category. **This resource is freely available on the web**

**USAspending.gov** <http://www.usaspending.gov/faads/index.php?reptype=a> -

The Grants/Other section of USAspending.gov allows visitors to search for information about federal assistance; including grants, insurance, and direct payments.

## Competitive Technical Intelligence

**ACM Digital Library** <http://portal.acm.org/> - The ACM Digital Library provides full text access to all ACM journals, transactions, proceedings, and magazines. **This database is available to PNNL employees and at the user stations only**

**Cambridge Scientific Abstracts** <http://www.csa.com/htbin/dbrng.cgi?username=mur3&access=mur3003&adv=1>

- This collection of databases (see below) indexes scientific and technical literature in a variety of fields.

- ASFA: Aquatic Sciences and Fisheries Abstracts
- BioOne Abstracts and Indexes
- Corrosion Abstracts
- GeoRef
- GeoRef in Process
- Oceanic Abstracts
- Pollution Abstracts
- Toxicology Abstracts
- Water Resources Abstract

**Compendex** <http://www.engineeringvillage2.org/controller/servlet/Controller?CID=quickSearch&database=COMPENDEX> -

This database covers the areas of chemical, electrical, mechanical, computer and civil engineering as well as applied physics.

**Electronic Journals** <https://library.pnl.gov/journals.asp>: PNNL and Hanford Site employees have desktop access to thousands of journals in a wide range of scientific and technical fields. **Journals are available to PNNL employees and at the user stations only.** The Library has access to two large collections of journals. Each collection permits simultaneous searching across numerous journals.

- **Science Direct** <http://www.sciencedirect.com/science> - Use this single solution for searching, browsing and delivery of full-text search results from hundreds of peer reviewed electronic journals.
- **SpringerLink** <http://www.springerlink.com/> - Find articles in Springer and Kluwer journals, two leading publishers of online research journals.

**IEEE Xplore** <http://ieeexplore.ieee.org/> - IEEE Xplore is a full-text database that includes magazines, transactions, conference proceedings and standards and covers a broad range of topics in electrical engineering.

**INSPEC** <http://www.engineeringvillage2.org/controller/servlet/Controller?CID=quickSearch&database=INSPEC> -

This database covers the areas of engineering, electronics, physics, and computer science and contains links to some full-text articles.

**MicroPatent** <http://www.micropat.com/cgi-bin/easylogin> - Simultaneously search US, European, Patent Cooperation Treaty, Great Britain, French and German patent records and the front page of Japanese documents. Download patent documents in PDF format. **This database is available to PNNL employees only.**

**PubMed** <http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?db=PubMed> - This database is the National Library of Medicine's free bibliographic database covering medicine, nursing, dentistry, veterinary medicine, and pre-clinical sciences. Online tutorials are available at <http://www.nlm.nih.gov/bsd/disted/pubmedtutorial/>. **This resource is freely available on the web.**

**Web of Science** <http://isiknowledge.com/wos> - This database covers virtually all science and technology subject areas. **This database is available to PNNL employees and at the user stations only.**

Need help getting started? Tip sheets for many of these products are available on the library web site at <https://library.pnl.gov/tipsheet/index.asp> or call the Single Service Desk at 509-372-7430 for more information.
